#### **GROUNDING INSTRUCTIONS**

**NOTE:** The operator must make certain that the amperage available at the outlet meets or exceeds the vacuum cleaner's amperage rating as specified on the vacuum cleaner's technical data sticker. Failure to verify the power available may result in unsatisfactory operation. Make certain that a suitable plug and outlet are used.

This vacuum cleaner must be grounded. Should it malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This vacuum cleaner is equipped with a cord having an equipment-grounding conductor and grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

**WARNING:** Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether an outlet is properly grounded. Do not modify the plug provided with the vacuum cleaner. If it will not fit the outlet, have a proper outlet installed by a qualified electrician. No adaptor should be used with this vacuum cleaner.

## **SAFETY INSTRUCTIONS**

## WARNING!

#### READ AND UNDERSTAND ALL INSTRUCTIONS

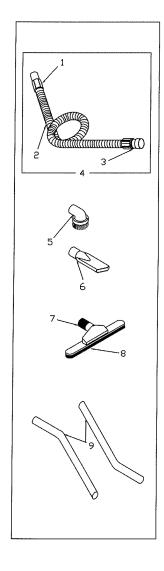

Failure to follow all instructions listed below, may result in accident, fire and/or personal injury.

#### SAVE THESE INSTRUCTIONS

- 1. Do not leave vacuum cleaner when plugged in. Unplug from outlet when not in use and before servicing.
- 2. Do not allow vacuum cleaner to be used as a toy. Close attention is necessary when used by or near children.
- 3. Use only as described in this manual. Use only with recommended attachments.
- 4. Do not use with damaged cord or plug. If vacuum cleaner is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- 5. Do not: pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run vacuum cleaner over cord. Keep cord away from heated surfaces.
- 6. Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- 7. Do not handle plug or appliance with wet hands.
- 8. Do not put any object into openings. Do not use with any openings blocked. Keep free of dust, lint, hair and anything that may reduce airflow. Poor ventilation will result in overheating of motor.
- 9. Keep hair, loose clothing, fingers and all parts of body away from openings and moving parts.
- 10. Do not pick-up anything that is burning or smoking such as: cigarettes, matches or hot ashes, etc.
- 11. Do not use without appropriate filters in place.
- 12. Turn off all controls before unplugging.
- 13. Use extra care when cleaning on stairs.
- 14. Do not recover flammable or combustible liquids such as gasoline, or use in areas where they may be present.
- 15. Always turn off vacuum cleaner before connecting or disconnecting motorized power-nozzle.
- 16. Never operate unit unless the power-head is securely fastened to the recovery tank with latches.
- 17. Connect to a properly grounded outlet only. See grounding instructions.
